**FP60** *FRP Rugged Series*  
Pebble Face 60-Minute FRP Fire-Rated Core Door

| <i>FRP Rugged Series</i>      | <b>Fiberglass Reinforced Polymer (FRP)</b>   |                                |
|-------------------------------|--|--------------------------------|
| <b>Overview</b>               | This door is specifically designed for use in harsh environments. Its all FRP and polymer construction is ideal for any project where the doors are frequently exposed to water, salt, and other harsh chemicals. The solid FRP pebble-grain faces are scratch resistant and graffiti can usually be wiped off with common cleaners. |                                |
| <b>Maximum Sizes</b>          | Single 4 <sup>0</sup> x 8 <sup>0</sup>   |                                |
| <b>Thickness</b>              | 1-3/4" only  |                                |
| <b>Core</b>                   | Non-combustible, asbestos free, NAF mineral fire core  |                                |
| <b>Stiles</b>                 | Fire-Rated Composite   |                                |
| <b>Top &amp; Bottom Rails</b> | Fire-Rated Composite   |                                |
| <b>Blocking</b>               | Each door comes with a fire-rated composite lock block<br>Optional blocking is available for closers and other surface-mounted hardware  |                                |
| <b>Core Assembly</b>          | Stiles and rails are securely bonded to core   |                                |
