we build the doors that build your reputation

## Standard Light Mouldings

**OregonDoor** wood light mouldings (also known as stops or beads), are available as follows:

- Factory Installed (with factory installed glazing)\*
- Installed One Side (with the other side precut for field installation after glazing)\*\*
- Shipped Loose (for field installation)

Field fitting of glass, glazing, and stops is the responsibility of the installer. Use of glazing compound or caulking is required. All standard profiles have a tolerance of  $\pm 0.005$ . Glass may be substituted with  $\frac{3}{8}$ " thick matching specie flat panel.

Additional moulding profiles are available by special order. Please contact the factory for details.
