we build the doors that build your reputation

Applied Mouldings

OregonDoor applied mouldings (also known as plant-on moulding), are available as follows:

- Mouldings can be provided in most commercially available lumber species
- Mouldings can be applied on veneer, laminate and painted doors with moulding matching or contrasting the face of the door
- Mouldings can be applied to fire-rated doors, as long as the moulding does not exceed $\frac{3}{4}$ " thickness and 2- $\frac{1}{2}$ " width Moulding arrangement may be limited by specific hardware and fire label
- Custom layouts available

Several moulding designs available:

**Nail holes filled on factory finished doors only*
